

NANDU SURESH

MERN STACK DEVELOPER

nandusuresh61@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFILE SUMMARY

Electronics Engineering graduate and Full Stack Developer with hands-on experience in building scalable web applications using modern JavaScript technologies. Skilled in frontend and backend development, API integration, database design, and cloud deployment. Strong understanding of system design fundamentals, software architecture, and the complete software development lifecycle. Passionate about developing production-ready applications with clean, maintainable code and performance-focused solutions.

SKILLS

Programming Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, WebSockets, REST APIs

Databases: MongoDB, PostgreSQL

Dev Tools: Git, GitHub, Postman, VS Code, Figma, Canva

Cloud & DevOps: AWS (EC2), AWS Amplify, Nginx

Concepts: Data Structures, Algorithms, OOP, Clean Architecture, SOLID Principles

PROJECTS

ProjectFlow – Multi-Tenant Project Management SaaS Platform

- **Architecture & Tech:** Built a scalable project management platform using MERN Stack, TypeScript, and MongoDB following Clean Architecture and SOLID principles.
- **Authentication:** Implemented JWT Authentication, Google OAuth, role-based access control, and secure user management.
- **Core Logic:** Developed workspace management, organization switching, Scrum-based project tracking, ticket management, activity logs, meetings, and billing modules.
- **Design & Scalability:** Designed a modular backend architecture focused on scalability, maintainability, and production readiness.

Fabrico – E-Commerce Platform

- **Architecture & Tech:** Developed a full-stack MERN e-commerce application with secure authentication and authorization.
- **E-commerce Core:** Implemented product management, category filtering, cart, wishlist, order management, coupons, and wallet functionality.
- **Integrations:** Integrated Razorpay for payments and Cloudinary for image storage.
- **Admin Panel:** Built an admin dashboard for managing users, products, orders, and sales operations.

MINI PROJECTS

Netflix Clone

- **React Mastery:** Built a responsive Netflix-inspired frontend using React.js practicing component-based architecture and state management.
- **Integrations & UI:** Implemented third-party API integration, responsive UI design, React Hooks, and modern frontend routing workflows.

EDUCATION

Brototype	2024 – Present
MERN Stack Development Program	
Government Polytechnic College Mattanur, Kannur	2020 – 2023
Diploma in Electronics Engineering
